

# KEERTHI RAJ VASIREDDY YUVARAJ

Cooper Street, Arlington, TX, USA, 76013 | +1-(682)-(377)-9637 | [kxv4094@mavs.uta.edu](mailto:kxv4094@mavs.uta.edu) | [keerthirajportfolio.azurewebsites.net/](https://keerthirajportfolio.azurewebsites.net/)

## PROFILE

Computer Engineering graduate with strong Python, C, Java, C++, and React.js skills. Experienced in hybrid car algorithms, Raspberry Pi ball detection (TensorFlow Lite), and real-time face mask detection (Convolutional Neural Networks). Tech enthusiast and team player.

## EDUCATION

- |   |                          |
|---|--------------------------|
| <b>Masters In Computer Engineering</b> - The University of Texas At Arlington, Texas, USA (GPA – 4.0/4.0) | <b>08/2022 – 05/2024</b> |
| <b>Bachelors In Computer Engineering And Data Science</b> - Presidency University, India (GPA – 3.96/4.0) | <b>08/2019 – 06/2023</b> |

## SKILLS

- **Programming Languages:** Python; C; Java; MATLAB; C++
- **Front-End Development:** HTML; CSS; React.js
- **Back-End Development:** Flask; Node.js
- **Databases:** MySQL; SQLite; MongoDB
- **Technologies & Operating Systems:** Linux; Raspberry Pi; OpenCV; Microsoft Office;
- **Software & Cloud:** Microsoft Azure; Google Firebase; Heroku; Github; Anaconda; Visual Studio Code; Android Studio; JetBrains

## EXPERIENCE

- |   |                          |
|---|--------------------------|
| <b>Student Associate – University of Texas at Arlington, Arlington, Texas</b>   | <b>03/2023 – Present</b> |
| <ul style="list-style-type: none"><li>• <b>Skills:</b> Communication, Organization, Teamwork, Customer Service, Multi-tasking</li><li>• Promoted student assistant to student associate. I now support the Admissions team by answering emails, processing admission applications, and managing the admissions procedure for potential graduate students. In the past, I helped with the undergraduate admissions process by answering calls, emails, and chat queries.</li></ul> |                          |

## PROJECTS

- |   |                           |
|---|---------------------------|
| <b>REEV (RANGE EXTENDED ELECTRIC VEHICLE), SAEINDIA</b>   | <b>03/2021 – 08/2022</b>  |
| <ul style="list-style-type: none"><li>• <b>Skills:</b> Matlab – Simulink</li><li>• The Projects was based on building a hybrid car, the competition was organized by SAEINDIA.</li><li>• Designed an algorithm to be implemented on the microcontroller.</li><li>• The algorithm was designed on the controlling and sensing of all the sensors along with automatic hybrid conversion.</li><li>• MATLAB – SIMULINK was used to implement the algorithm and extracting the code.</li></ul>  |                           |
| <b>Robocon 2022, DD National</b>  | <b>02/2022 – 07/2022</b>  |
| <ul style="list-style-type: none"><li>• <b>Skills:</b> Raspberry pi, TensorFlow Lite, OpenCV, Data Collection and Transformation</li><li>• Ball Detection had to be implemented into raspberry pi for detecting the ball.</li><li>• White ball images were captured with different background images in different angles and multiple translations were applied to for more data generation using the python as a tool.</li><li>• Applied Deep Learning algorithms like CNN and TensorFlow lite for better accuracy and efficiency.</li><li>• OPENCV tracking algorithms like CSRT, KCF, Boosting were more efficient and had better accuracy when compared to DL algorithms due to the low specifications of the Raspberry pi.</li></ul> |                           |
| <b>Face Mask Detection, Presidency University</b>   | <b>07/ 2022 – 07/2022</b> |
| <ul style="list-style-type: none"><li>• <b>Skills:</b> OpenCV, Convolutional Neural Network</li><li>• Realtime Detection of mask on the human face was the major motive of this project during the pandemic season.</li><li>• Gathered the dataset from the Kaggle website.</li><li>• Developed a Convolutional Neural Network from scratch for the model and manipulated the neural network layers based on the dataset size.</li><li>• OPENCV was used for the API for detection in real time.</li></ul>  |                           |

## Personal Projects (GitHub)

- Chat Application, Car Price Prediction, iPhone Purchase Predictor

## ACTIVITIES & INTEREST

- Secretary of Hindu Yuva Organization at UTA, Volunteers at Mission Arlington – Distributing Packages for Mission Arlington
- Music, Travelling and Technology Insights
